

# Shopping Carts and Baskets

**RW ROGERS**  
COMPANY

Solutions to streamline  
your retail environment

SINCE 1963

## Longevity. Innovation. Excellence.

The R.W. Rogers Company was established in 1963 as an organization dedicated to supplying new and used grocery shopping carts to local customers in the Midwest.

Our company has grown since then to now offer a full line of equipment to our customers nationwide, while keeping true to our Midwest roots. Our product line has expanded to shopping carts, garden carts, shopping baskets, material handling equipment, e-commerce solutions, store fixtures and more.

In addition to expanding our product offerings, our warehouse has grown from a modest 4,000 square feet to an impressive 85,000 square feet. Our facility is not the only aspect of our business that has expanded. While we still recondition used equipment and represent various manufacturers, we have also successfully transitioned into importing and manufacturing a wide variety of retail solutions ourselves.

Our customers experience the unmatched service and quality products that our company provides that they have been accustomed to since our company began.

## Distribute

Flexibility and various shipping and distribution methods to fit your needs.

## Refurbish

Reconditioned shopping carts as an alternative solution. Add to your existing fleet or supply your store with a fresh look.

## Buy Back

Solutions for your existing cart fleets. Call us today to learn more.

# Whether plastic or metal, our shopping carts are always up to the task.

**PLASTIC SHOPPING CARTS** combine the best characteristics of metal shopping carts with those of plastic shopping carts. The result is a cart that maximizes quality, functionality, stability and durability.

# Introducing our newest design solution...SleekLine shopping carts.

SleekLine offers a variety of modern features. R.W. Rogers invests in product manufacturing to ensure nesting capability with your current fleet.

## ABOUT OUR MANUFACTURING PROCESS

Shown: ergo I  
with ergo XT and  
EASY phone holder.

Our process includes a large number of advanced equipment such as automatic CO2 welding robot hands, automatic spot welding machines, CNC tube and wire bending machines, automatic detection powder coating line. This all ensures precision as well as a larger manufacturing capacity and quicker turn around for our customers.

Our manufacturing facility is certified by the ISO9001-2015 quality audit, social responsibility and security audit.

### SmartSafe and SmartSafe Twin

Retractable seat belt to keep children safe while shopping with parents.

### Bag Holders

Hang produce bags or personal shopping bags to separate products. It's a convenient way for shoppers to increase capacity.

### Front Pull Handle

Allows customer to easily maneuver the cart while standing at the front, with the added bonus of additional marketing opportunities.

### EASY Phone Holder

Self-adjusting smartphone holder for a contactless experience.

### ergo I, ergo II & ergo XT

Three ergonomic handle system options allow customers to grasp the cart handles using the natural position of hand and wrist, making fully loaded shopping carts much easier to maneuver. All handles come standard with ant-static feature. (ergo XT shown here)

### Feature Strip

Customized marketing opportunities on both sides and front of the basket.

Ready to get started? Give us a call.
