

# EASY

## The easy and convenient way to shop.

Enhance the customers shopping experience by providing a hands free solution for Smartphones.

Self-adjusting  
smartphone  
holder for a  
contactless  
experience.

### liveTec EASY

Our innovative smartphone holder system makes shopping using a smartphone easier by providing a safe and contactless experience. The EASY self-adjusts automatically to the size of your phone, and can be quickly removed by the customer. The EASY is a cost-effective solution that works with smartphones of different sizes, large or small – with or without a protective case.

For marketing and advertising purposes, simply attach a QR code or message leading directly to the retailer app to heighten customer awareness and increase user numbers. It can also be retrofitted to almost all standard shopping cart handles. Isn't it time to go EASY?

- **Quick mounting**

Mounts to almost all shopping carts with only one screw.

- **One size fits all**

The EASY can accommodate large or small smartphones, with or without a protective case.

- **Easy to use**

The smartphone is simply placed into the holder from above and requires no additional contact while grocery shopping.
